

Grant's Garden Center Christmas Market 2026 Information

Thank you for your interest in being a vendor at our Christmas Market! We host around 50 vendors every year at Grant's Garden Center located at 2115 OH-131 Batavia Ohio in our greenhouse. This year the dates for the market are November 13 through December 20. We do this as a consignment. You will never need to be present for your items to sell- we will sell your items for you through our registers. You will be assigned a vendor number that must be clearly indicated on every item you bring next to the price. You will rent a booth space based on the size you want and we sell your items and keep 25% of your total sales. You must have your booth set up between the dates of November 7 and 12 and remove your items on December 21 or 22. You are welcome to move items in and out of your booth as you please- we do not track any inventory for you. We do expect you to keep stock available all season.

The booths are available in two sizes:

8'x8' for \$100. This booth requires being a walkthrough, so you can only use two sides.

10'x10' for \$200. This booth is not walk through so you can use three sides.

The majority of vendors will not be in a booth- they will have space on our tables. A table space is \$50. I say they will be about 2'x6', but honestly it can vary because we will have you on different tables based upon your items. For food and bakery items you will likely be closer to the checkout counters and have a different layout. All table space vendors will be \$50, there is not another option. We can do two table spaces if you need more space than 2x6.

Additionally, booth sizes will be allocated based on previous sales. If you are a vendor who had high sales in previous years, you will get first pick of booth sizes. New vendors rarely will be offered a booth space. While all previous vendors are invited back to be a vendor again, you are not necessarily guaranteed the same booth size.

I keep vendor stuff very organized, and to do this I require all communication through email. If you stop in or call to ask a question, we will kindly ask you to email grantsvendors@gmail.com as the employees working in the stores will not know the answers.

I think it's worth noting that we do this Christmas market for fun. We are a greenhouse and our primary business is growing and selling plants in the spring. We love our Christmas Market, but it does not receive our full attention. With that said, we are very laid back this time of year. We are looking for vendors who would describe themselves as laid back/go with the flow people. Throughout the summer I will be slow to respond as the farm is closed

until Labor Day. If you are looking to be accepted into the market immediately or wanting immediate answers to your questions throughout the summer please do not apply as you will likely be unhappy with our response time. If you are considering applying to be in this market please understand this.
